

## ANTIQUe MIRRORS

Antique mirrors as a material and resource intrigued us with its versatility. They filter reality and provide a magically transfigured image. Color and patina are unique and different from slab to slab. Its name suggests a crafted antique material but the reality is that the palette, depth of reflection and richness of finish allow for an endless choice of contemporary application, be it within product, interior or architectural designs. Each of our six designs pair well with vintage furniture, work in a variety of different settings, and can help to achieve a range of unique aesthetics. A popular use has been to incorporate an antique mirror backsplash into a bar or bathroom as a cool accent.
