

METAL MESH

Yaldomi has created the most delightful architectural product available today Metal Mesh Lam. By combining two glass panes and a metal mesh with its unique texture Metal Mesh Lam can enhance any space as a decorative feature in both interior and exterior designs. Metal Mesh Lam can be integrated into diverse interior architectural applications, as well as exterior glass curtain walls as part of an effective daylighting strategy. The metal mesh is laminated between glass panels with the option of twelve different weave patterns, making each design unique. In terms of appearance laminated glass is extremely elegant thanks to the greater thickness of the transparent material which highlights the depth and anonche wire tint of the laminated metal mesh.
